I See Unicorns

I see **U**nicorns in trees

nibbling on the *greeneries*,

Up in purpled mountains high;

under blue and aqua sky.

In the white of clouds by day,

I see **U**nicorns at play.

In the rising of the morning,

orange **U**nicorns at dawning.

Through the **u**sk, the **u**sun is setting;

yellow **U**nicorns are getting

ready for the black of night,

dancing in the **u**lunar light.

Chocolate **U**nicorns are found

in winds that swirl the dirt **u**round.

Scarlet **U**nicorns are found
in flowers bursting from the ground.

When the sun and rain draw near,
Rainbow **U**nicorns appear.

In the raindrops left behind
Silver **U**nicorns you'll find.

You could catch one easily;
but they prefer remaining free.
